

Technical Specs

Sound

We have 2 cd players (non mp3), 1 dual cassette, and 1 3.5mm stereo plug and jack for hooking to the headphone out of your computer, mp3 player or some phones. These inputs are controlled by a 12 channel mixer in the control booth. We have four speakers on stage. Two are movable and two are fixed to the upstage wall up high.

Lights

We will hang a general wash to illuminate all acting areas. Control will be by grandmaster only, eg lights up, blackout, fade

Communication

We will provide 3 portable headsets for your use during your setup and show
